

Warnings:

- **Do not use on cats.**
- Due to their unique physiology and inability to metabolise certain compounds, this product must not be used on cats. To prevent cats from accidentally being exposed to **Advantix®**, keep treated dogs away from cats until the application site is dry. Do not allow cats to groom the site of application on a dog which has been treated with **Advantix®**. Seek veterinary advice immediately if this occurs or if a cat is accidentally treated with **Advantix®**.
- In the absence of available data, the product should not be used on puppies of less than 7 weeks of age and 1,5 kg of weight.
- Handle with care.
- Store in a cool, dry place below 25 °C, away from food and feed.
- Keep out of reach of children, uninformed persons and animals.
- **Advantix®**-treated dogs should not swim in an aquatic environment for 48 hours after treatment, as the product could be harmful to aquatic organisms.
- On rare occasions, reaction in dogs may include transient skin sensitivity (including pruritus, alopecia and erythema at the application site) or lethargy.
- Consult your veterinarian before using the product on sick and debilitated dogs.
- Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek your veterinarian's advice and notify the registration holder.

Precautions:

- Avoid contact with skin, eyes or mouth.
- Do not eat, drink or smoke while applying or after application before washing hands thoroughly.
- Prevent contamination of food, food utensils, drinking water, etc.
- Wash hands thoroughly after use.
- Dispose of used tubes safely.
- The solvent in **Advantix®** may stain certain materials including plastics, leather, fabrics and finished surfaces. Allow the application site to dry before permitting contact with such materials.
- In case of accidental spillage onto skin, wash off immediately with soap and water.
- People with known skin sensitivity may be particularly sensitive to this product. In case of eye contact, flush eye thoroughly with plenty of water. If skin or eye irritation persists, or if the product is accidentally swallowed, seek medical attention and show the package insert to the physician.
