

### Warnings:

- Do not use on kittens under 9 weeks of age and less than 1,0 kg body mass.
- **Advocate**<sup>®</sup> for cats must not be used on dogs.
- The safety of Advocate<sup>®</sup> for cats has not been established during pregnancy and lactation.
- Handle with care.
- Store away from food and feed.
- Keep out of reach of children, uninformed persons and animals.
- Do not allow recently treated animals to groom each other.
- Care should be taken to prevent the animal from licking the application site.
- On rare occasions, the use of the product may result in transient pruritus in cats, and greasy fur, erythema and vomiting can occur. These signs disappear without further treatment.
- The product tastes bitter. Salivation may occasionally occur if the animal licks the application site immediately after treatment. This is not a sign of intoxication and disappears within some minutes without treatment. Correct application will minimise licking of the application site.
- It is recommended that cats living in or travelling to areas endemic for heartworm are treated monthly with the product to protect them from heartworm disease. Whilst accuracy of diagnosis of feline heartworm infection is limited, it is recommended that attempts be made to check the status of any cat over 6 months, before beginning prophylactic treatment, as use of the product on cats which have adult heartworms may cause serious adverse effects, including death. If adult heartworm infection is diagnosed, the infection should be treated in accordance with current scientific knowledge.
- Consult your veterinarian before using the product on sick and debilitated cats, as well as cats weighing less than 1 kg.
- Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek your veterinarian's advice and notify the registration holder.

### Precautions:

- Avoid contact with skin, eyes or mouth.
- Do not eat, drink or smoke while applying or after application before washing hands thoroughly.
- After application, do not stroke or groom animals until the application site is dry.
- Prevent contamination of food, food utensils, drinking water, etc.
- Wash hands thoroughly after use.
- Dispose of used tubes safely.
- The solvent in **Advocate**<sup>®</sup> may stain certain materials, including plastics, leather, fabrics and finished surfaces. Allow the application site to dry before permitting contact with such materials.
- In case of accidental spillage onto skin, wash off immediately with soap and water.
- People with known skin sensitivity may be particularly sensitive to this product.
- If the product accidentally gets into the eyes, flush thoroughly with water. If skin or eye irritation persists or if the product is accidentally swallowed, seek medical attention and show the package insert to the physician.
