

## WARNINGS

- DO NOT TREAT DOGS FOR HEARTWORM UNLESS YOUR VETERINARIAN HAS BEEN CONSULTED AND DIRECTIONS FOR USE AND POSSIBLE SIDE EFFECTS OF TREATMENT EXPLAINED BY THE VETERINARIAN.
- Do not use in dogs with MDR-1 gene deletion (collie type dogs) as toxicity may occur.
- After treatment with **NEXGARD® SPECTRA**, fleas and ticks need to start feeding on the host to become exposed to afoxolaner; therefore the risk of the transmission of parasite borne diseases cannot be excluded.
- The attachment of single ticks cannot be excluded.
- **NEXGARD® SPECTRA** may cause vomiting and diarrhoea in some dogs.
- Use during pregnancy, lactation or breeding: The safety of NEXGARD® SPECTRA has not been established during pregnancy and lactation or in breeding dogs. Use only according to the risk/benefit assessment by the responsible veterinarian.
- **NEXGARD® SPECTRA** is not indicated for use against tape worm.
- Keep out of reach of children, uninformed persons and animals.
- Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek veterinary advice and notify the registration holder.
